Education & Background

The University of Hong Kong

Hongkong, China

Research Assistant in Digital Construction, Department of Real Estate and Construction

Aug. 2025 - Now

- Research Field: Cross-Border Logistics of Modular Integrated Construction (MiC)
- Advisor: **Wilson Lu**, Head of Department and Chair Professor.

Peking University

Beijing, China

Master in Landscape Architecture, College of Architecture and Landscape

Sep. 2022 - Jul. 2025

- Master Thesis: Cost-Benefit & Multi-Objective Balance of Ecological Policies via Agent-Based Modeling
- Advisor: **Liyan Xu**, Associate Professor.

Hunan University

Hunan, China

Bachelor in Urban and Rural Planning, School of Architecture and Planning

Sep. 2017 - Jun. 2022

- Graduation Design: Flood Resilient Park Planning and Design Based on Sponge City Principles
- Advisor: **Ran Jing**, Associate Professor.

Research Experience

Research Assistant - The University of Hongkong

Vibration Risk Mapping in Cross-Border MiC Logistics

Hongkong, China

Core Researcher, advised by Prof. Wilson Lu

Aug. 2025 - Now

- Processed **400k+ GNSS/IMU records** and road data to construct segmented vibration indicators and feature set for risk modeling.
- Identifying **vibration hotspots and risk patterns** through exploratory analysis and spatial visualization.
- Establishing extensible data pipeline and modeling framework for **multi-phase risk mapping and transfer learning**.

Research Intern - 'MIT-UF-NU' 2025 Summer Joint Research Camp

Human Perception-Driven Urban Street View Generation with ControlNet

MIT-UF-NU

Core Researcher, advised by Prof. Yuebing Liang (THU)

Jun. 2025 - Now

- Fine-tuned a ControlNet model to generate street-view images from **urban layout maps** and **human perception scores**.
- Validated the **output quality and perceptual alignment**, ensuring the model's reliability for visual and semantic urban analysis.
- Probing **model embeddings** to uncover the underlying relationships between spatial elements and human perceptions.

Graduate Researcher - Peking University

Automated Generation and Multi-objective Optimization of Land-Use Planning

Beijing, China

Core Researcher, advised by Prof. Liyan Xu

Jan. 2024 - Now

- Conceptualized a novel land-use planning strategy that combines **reinforcement learning and multi-objective optimization**.
- Enhancing the Proximal Policy Optimization (PPO)-based reinforcement learning model for **provincial-scale applicability**.
- Incorporating Pareto multi-objective optimization to maximize both **economic land rent and ecological service value** in land-use.

AI-Human Collaboration in Urban Design: An AIGC Tool for Streetscape Imagery

Beijing, China

Core Researcher, advised by Prof. Liyan Xu

Jan. 2024 - Jan. 2025

- Fine-tuned **a model using LoRA tailored for street garden**, enabling Stable Diffusion to generate 4 schemas within 1 minute.
- Designed an experiment that varies user control over **redesign areas and prompt words** to model 4 levels of designer collaboration.
- **Recruited 160 participants** and analyzed the **aesthetic and alignment scores** of generations under different collaboration modes.

Simulation of Ecological Policy: Balancing Development and Conservation

Beijing, China

Core Researcher, advised by Prof. Liyan Xu

May. 2023 - Jan. 2025

- Developed an **Agent-Based Model** to simulate the comprehensive impacts of **260 policy combination scenarios** of Grain-to-Green and Firewood-to-Electricity programs in **Wolong National Reserve**.
- Conducted the **cost-efficiency analysis** to identify the **optimal compensation or subsidy levels** for individual policy.
- Integrated **Pareto analysis with posterior optimization** to identify policy combinations balancing **panda habitat, carbon emissions, and economic benefits**, and aligning with **budget constraints and decision-maker preferences**.

Undergraduate Researcher - Hunan University

The Color Analysis of Ancient Architecture

Hunan, China

Core Researcher, won the 1st prize of National College Student Innovation Training Program

Sep. 2019 - May. 2021

- Collected 1,341 color samples encompassing **the entire range of ancient architectures** at Yuelu Academy.
- Proposed a systematic and scientific working model for **the data collection and correction** of ancient architectural colors.
- Utilized the Nippon Color & Design (NCD) color system for the analysis of **ancient architectural color imagery**, exploring the **protection and revitalization** of ancient buildings from a human-centric perspective.

Selected Honors

2025	Outstanding Graduate Award	Peking University
2024	Outstanding Scientific Research Award (1 Student Each Year)	Peking University
2023	Merit Student (3 Students Each Year)	Peking University
2023	Scientific Innovation Award Scholarship (3 Students Each Year)	Peking University
2023	1st Prize (TOP 1%) of International Innovation Design & Science for SDGs Innovation Contest	China
2020	1st Prize (TOP 1%) of National College Student Innovation Training Program	China
2018-2021	Outstanding Undergraduate Researcher Scholarship (3 Consecutive Years)	Hunan University
2018	Excellent Student Cadre	Hunan University

Internship & Activities

Academic Department Minister of the College of Architecture and Landscape <i>Organized 10 academic lectures and 2 PhD experience sharing lectures.</i>	Peking University Sep. 2023 - Sep. 2024
Intern at AI Innovation and Research Institute <i>Trained the Stable Diffusion model for AI rendering of landscape design schemas.</i>	Turenscape Company Jun. 2023 - Sep. 2023
Rural Revitalization Workshop Organizer <i>Led 19 members from 9 universities to conduct field research and public welfare construction in rural.</i>	Peking University Aug. 2022

Skills

Coding	Python, Sql, \LaTeX
Software	SPSS, GIS (ArcGIS, QGIS), Adobe (PS, AI, AU), Modelling (CAD, Sketch Up, Unity)
